Full Stack Developer with hands-on experience building responsive UIs and scalable backends using React, Next.js, Node.js, and MySQL. Passionate about creating tools that simplify workflows, improve user experience, and solve real-world problems. Skilled at building end-to-end applications, collaborating cross-functionally, and deploying production-ready features.

TECHNICAL SKILLS

Frontend:Next.js, React, TypeScript, Tailwind CSS, HTML5, CSS3, JavaScript, Bootstrap, Responsive Design
Backend: Node.js, Express.js, REST, GraphQL, MySQL, MongoDB, Sequelize, NoSQL
Tools & Others: Git & GitHub, Vercel (CI/CD), VS Code, Insomnia, Google Forms API, Email Notifications

PROJECTS

Automated Ordering & Inventory System
Created an automated ordering and inventory system using Google Forms and custom code to manage inventory levels at the restaurant. The system tracks stock and automatically generates orders when inventory reaches a predefined threshold. Managers receive an email notification upon submission to ensure timely restocking.
Skills Used: Google Forms API, JavaScript, Automation, Backend Integration, Email Notifications

Coffee Education Platform for Small Businesses — https://shokolatte.ca
Built a modern, responsive coffee education website using Next.js, Tailwind CSS, and Vercel. Includes digital products, training services, and a booking system for barista professionals.
Skills Used: Next.js, TypeScript, Tailwind CSS, Vercel, Responsive Design, UI/UX Best Practices

E-commerce Platform — https://github.com/Shok1to/E-commerce
Created an E-commerce application to manage products, orders, and user data seamlessly. Implemented a backend with Express.js and Sequelize ORM to interact with MySQL database.
Skills Used:Node.js, Express.js, Sequelize, MySQL, RESTful API, Insomnia

Employee Tracker — https://github.com/Shok1to/Employee-Tracker
Built a full-stack Employee Tracker application to manage employee information with a MySQL database and Node.js. Ensured the application provided an intuitive CLI interface for users.
Skills Used: Node.js, Inquirer.js, MySQL, SQL, Command Line App, Insomnia

PROFESSIONAL EXPERIENCE

Company Barista trainer / Bartender, Gruppo Terroni (Sud Forno) — Toronto, ON September 2021 - PRESENT
- Built custom inventory and alert systems using automation scripts and Google Forms.
